

Viewing 3D images on a desktop:

- 1. Open browser settings**
- 2. In Chrome, click on “Extensions” and check box for “Enabled” beside Adobe Acrobat.**
- 3. In Explorer, click on Internet Options>Programs>Manage Add-ons. Make sure Adobe Acrobat is highlighted under “Toolbars and Extensions” and click “Enable.”**
- 4. In Firefox, open internet menu and select Options>Applications. In the drop down menu for PDF, select “Use Adobe Acrobat.”**
- 5. Click “Trust” if prompted by any browser in order to view 3D Model.**

Viewing 3D images on a mobile device:

- 1. For Apple and Android devices, download a 3D app from app store such as 3DPDF Reader.**
- 2. For Apple devices: to open a 3D PDF in the reader, click on blank page of 3D Image, click “more” in upper right corner, choose “Import with 3DPDF Reader.”**
- 3. For Android users: to open a 3D PDF in the reader, click on the menu options in the upper left corner. Click “open with” and choose the 3DPDF App.**
